

MITIGATED DETERMINATION OF NON-SIGNIFICANCE

Description of proposal: The proposal consists of timber harvest on 66-acres. There will be 4740 feet of road construction associated with this proposal. Portions of this proposal involve road construction on potentially unstable landforms. This review covers the Forest Practices Application (FPA) activities as described in FPA #2919827.

Description of mitigation:

Culvert installation that crosses the unstable area will be removed after harvest.
